November 10, 2020

Weimar ISD administration and board understand that there continues to be great uncertainty and anxiety associated with the impact that COVID – 19 has on our schools. We know that guidelines are constantly being adjusted, as protocols are being tested and data is disaggregated. So, we are relying on our direct communication with the Texas Department of State Health Services, DSHS, and Texas Regional School Administrators to set a threshold for potential campus closures.

Weimar ISD has set a 20% campus threshold for quarantined staff or students, which is due to close contact or positive COVID test results, to trigger a closure of that campus. The count will be displayed, with our active confirmed counts, on the Weimar ISD website. These numbers will not include individuals with COVID like symptoms.

The 20% thresholds:

Weimar High School	38 Students	or	7 Staff
Weimar Junior High	41 Students	or	6 Staff
Weimar Elementary	55 Students	or	9 Staff

Jon Wunderlich, Superintendent

Weimar Independent School District
