## State Compensatory Education

Weimar ISD has written policies and procedures to identify the following:

- Students who are at risk of dropping out of school under state criteria
- Students who are at risk of dropping out of school under local criteria
- How students are entered into the SCE program
- How students are exited from the SCE program
- The cost of the regular education program in relation to budget allocations per student and/or instructional staff per student ratio

**Total SCE funds allotted to Weimar High School: \$161,559**

**Total FTEs funded through SCE at Weimar High School: 2.5**

**The process we use to identify students at risk is:** Weimar High School identifies At-risk students by researching the students' prior and current academic performance, residential placement, low SES (if applicable), home language survey, history of behavior, state assessment and local benchmark performance, Student Success Team evaluations, and universal screening assessments.

**The comprehensive, intensive, accelerated instruction program at Weimar High School consists of:**

For the current school year, Weimar High School has created Math, Reading, Writing, Science, & Social Studies Labs for any student at-risk of failing their current grade level or the 2025 STAAR Assessments. Computer-based programs such as A+ have been purchased and are being used as additional resources. Inclusion personnel have been assigned to all core subject areas to support students. After-school Tutorials and the Homework Lab are also being provided to any student in jeopardy of failing and/or at-risk of failing the STAAR test.

**Upon evaluation of the effectiveness of this program, the committee finds that:**

The established programs at Weimar High School ensure student learning and promise to decrease the number of students enrolled in SCE programs drastically. Through the professional support of the faculty and staff, each student will add value to their academic knowledge and mastery level.
