

The Bonham Foundation promotes agriculture, wildlife, and natural resource conservation through education, stewardship, and advocacy. Our ranch between Weimar and Columbus is home to a registered Angus cow herd, thriving native plant and wildlife populations, and offers an outdoor classroom ideal for learning about the natural environment around us.

We are excited to offer up to two \$2,500 scholarships to graduating high school students from Colorado County who have excelled in their studies and intend to become like-minded advocates for the agriculture and wildlife conservation industries. The scholarship may be used to attend classes at a junior college or university. To be considered, candidates must choose a field of study relating to agriculture, wildlife, or natural resource management. Those chosen to receive the scholarship will be required to show proof of enrollment in a degree plan associated with the above fields of study before receiving funds.

Please include the following along with your completed scholarship application:

- 1) Copy of high school transcript through first semester of senior year
- 2) Letter of recommendation from unrelated adult

Please turn in all application materials to your counselor on or before April 1, 2026.

Thank you,  
Nancy Holt  
President, Bonham Foundation, Inc.
