

Get to know ME!!!

My name is Natalie Krejci, and I am going on my 8th year here at Weimar ISD. I started out as a paraprofessional with FAST while I was getting my teaching certificate. I have taught 5th, 7th, and 8th Grade Science in the past. This year I'm going to be teaching 8 Grade Science and Biology! I'm very excited to be a part of the High School this year, as well as, the Junior High.

A little about me, I graduated from Moulton High School in 2005. From there I went to Texas State University and received by Bachelor's Degree in Exercise, Sports, and Science with a minor in Psychology in 2010. I married my husband Kevin in 2017, and we added our daughter Henley Grace to our family in 2019. We currently reside in Moulton.

I was unsure of what I wanted to do for the rest of my life but with a lot of soul searching, I realized teaching was a calling and Weimar was the place for me. I cannot express how much I enjoy motivating students to do their best and finding ways to get them interested in Science. I love the career I have chosen and cannot wait to meet my 8th grade and Biology students this year.
