## Course Overview

This course is designed for students learning typing and digital communication skills.

---

## Course Goals

By the end of this course, students will be able to:

- The course is divided into Lessons 1 through 10, each spanning 1=3 weeks and focused on both typing practice (via [Typing.com](https://www.typing.com)) and written assignments.
- Assignments include formatting memos, sending emails, creating outlines and tables, writing business letters, composing newsletters, and crafting presentations.
- Each lesson contains both formative (helpful practice) and summative (grading mastery) components.
